

**FIRST APPENDIX TO THE RECORDS OF INDUSTRIAL MISSION  
(INCLUDING RELATED PAPERS)**

**SUPPLEMENT 1998**

**BOXES 31, 32, 33**

**Jack Keiser  
1998**

## **BOXES 31, 32, 33**

The material in these boxes has been collected and catalogued by the Revd Michael Atkinson, a long standing member of the Industrial Mission Association.

His catalogue is attached and should be self-explanatory. Each item has a number, (e.g. 11/0051) in which the first number refers to the subject (e.g. 11 refers to WCC and non-British Churches) and the second number (e.g. 0051) to the individual item.

The material is filed in the three boxes as follows:

### **BOX 31**

#### **Items 01/002 to 07/002**

Subjects (1) Church and Society

#### **Items 10/002 to 11/028**

(2) Church and Industry  
General  
WCC and non-British Churches

### **BOX 32**

#### **Items 12/001 to 18/050**

Subject: Church and Industry

### **BOX 33**

#### **Items 18/051 to 50/014**

Subjects (1) Church and Industry  
Individual authors

(2) Industry

(3) Industrial Relations

## Papers deposited by the Rev'd Michael Hubert Atkinson, 1997

Three boxes of papers are deposited. Earlier deposits have been made with the Industrial Mission Association Archive at the William Temple Foundation or the John Rylands University Library, Manchester.

I am intending to deposit some papers relating to the Sheffield Industrial Mission with Industrial Mission in South Yorkshire (IMSY).

I am also retaining three or four boxes of papers.

Included herewith is an index to the papers. It has been constructed on an Apple Macintosh machine, using Clarisworks 1.0B, System 7.0 British. I retain a copy of the index on disk. It is in the following form:

---

Author	Type of document	Date	Index
Title, publication details, brief description and notes			

---

The numerical 'index' in the top right-hand box shows the order in which the papers are filed. This is an order based initially on subject matter, and then within each subject by date, or by author, as appropriate.

The first two digits before the / slash indicate the subject matter.

The digits after the / slash classify the document in date-order or according to author or origin, as appropriate.
